Project proposal

A **one-page** description of what you plan to do for your project, due latest by **midnight**, **February 9th.**

Please include:

- Who is in your group
- Project title
- Brief description of the problem you'll solve or the question you'll investigate
- What data you'll use and where you'll get it
- Which algorithms/techniques you plan to use, especially how they are related to topics covered in class
- What you expect to submit at the end of the quarter

Please submit your proposal in a reasonable format (text, html, pdf, etc.) to the staff email list (cs345a-win0809-staff at mailman dot stanford dot edu). One copy per group is fine.

This is intended mainly as a check to make sure you've got a workable idea and a plan for carrying it through, so don't spend a lot of time making it beautiful, but do think seriously about what you're planning to do. It is to your benefit to flesh out your ideas as much as possible in this proposal.
